Summer Reading Program 2010

Summer is almost here! And that means it's time for the 2010 Summer Reading Program! Get ready to read with us this summer and take part in a wide variety of programs at the Library June 8-July 30.

This year's theme is all about water. All ages are welcome to participate. It's fun, fast, and easy!

Reading logs will be available at the Library and on the website, www.pspl.org. Stop in to pick up your Summer Reading Packet! Turn in your first log to receive an incentive prize and be entered into drawings for one of the following grand prizes: two \$200

Kroger gift cards, two family cruises (for five people) to the Belle of Louisville, or two family admissions (for five people) to Newport Aquarium. Each additional reading log during the summer will be additional entries into the drawings.

But the fun doesn't stop there! The Library has many events planned throughout the summer.

This year we have something for everyone, from children to adults. There will be bubbles, fishing, a water color artist, and a

street concert, but that's not all!

To find out more, join us during our Summer Reading Open House on June 8 from 2:00-7:00pm in the Library Community Room. Help us kick off the Library's summer reading program by signing up, enjoying refreshments, and entering to win door prizes. This summer promises to be the best one yet for fun, adventure, and reading! Come on in and make a splash!

Funding for this year's summer reading program has generously been provided by The Friends of the Paul Sawyer Public Library.

Special Screening of the film *FRESH*

Join the Paul Sawyer Public Library for a special screening of the film *FRESH* on Monday, June 7th at 6:30pm.

A film by Ana Sofia Joanes, *FRESH* celebrates the farmers, thinkers, and business people

across America who are re-inventing our food system. Each has wit-

nessed the rapid transformation of our agriculture into an industrial model, and confronted the consequences: food contamination, environmental pollution, depletion of natural resources, and morbid obesity. Forging healthier, sustainable alternatives, they offer a practical vision for the future of our food and our planet.

FRESH was an official selection in the Environmental Film Festival, the Sustainable Living Film Festival, and many more. This free screening will take place in the Library Community Room. To learn more about the film, visit www.freshthemovie.com.

For more information on this event, please contact Diane at 352-2665x108 or diane@pspl.org.
